## WEIRD AND WACKY DESIGNS

On this page there are 5 images of some very common items:

**A Clock; an Umbrella; a Fish; an Egg and a Car.**

You have to sell these items to the rest of the class, but not as they are completely different. You have to **REDESIGN** them

For Example:

The Fish could be a Bed for a Cat.

The Clock could be a Table Top for teaching Children about Meal Times.

Firstly answer these questions to help you decide what the products will become.

**Circle** your preferred choice.
